This means the standing charge applied to our account will increase to reflect the final

industry TNUoS charge published by NESO. However, the information they have provided suggests there will not be a change:

**25.228 <u>NEIGHBOURHOOD PLAN</u>**

a. Matters arising

The NNC Local Plan Review webinar on 2nd March created some doubt as to whether the review should take place now or later. In response to this uncertainty, the Clerk had had a Teams meeting with the senior planning policy officer for Neighbourhood Plans, on Friday 13th March.

The senior planning policy officer has had advised why reviews and new plans continue to be important. She of the opinion that public consultation is very important.

The Clerk had provided to all councillors a document that merges the 2025 existing policy review with the potential updated policies and new policies as favoured by Council in February. This document has also been emailed to the senior planning policy officer for comment on what level consultation is required and what part of the neighbourhood plan legal process it can be slotted into. The initial feedback received was that a Regulation 14 consultation for a minimum period of 6 weeks would be required.

The action plan as discussed with Umrah would be to undertake a small (2 week) consultation saying this is what we are looking to do, do you agree, what else should we include etc. It was agreed that this would be launched on 16th April at What's Happening Stanwick

This shows community engagement and would update our 'evidence basis'.

It was noted that the Clerk had met with the are PCSO to discuss recent reports made relating to suspected drug dealing. It was noted that for a variety of reasons people did not report incidents to the Police and the Clerk had instigated a social media campaign to encourage personal responsibility against crime and to encourage reports to be made.

It was noted that the Police online reporting tool was cumbersome and time consuming. It required, for example, the post of the recreation ground, which doesn't have a post code and this is likely to deter people from reported.

c. Second Speed Indication Device

It was agreed to deploy the second device on Raunds Road until such times as the fixed SID is installed.

d. Staggered barriers on the Hawkes path

The present arrangements is for a sum equivalent to a years rent is collected when the tenancy agreement is signed.

It was agreed that the current arrangements should continue as the Council did not want to make the allotments unaffordable to any members of the community.

g. Rain water capture system
